## TESTIMONIALS

The tuition has helped me think outside the box and gave me a better perspective in answering the subject (mathematics) related questions. Mr. Zech is also very nice and has good patience in answering my questions and helping me with my work. Also, I can see improvement in my work after being taught by him and his teaching helped me understand the subject better.

Louis C., IGCSE 2020

## TESTIMONIALS

After Mr. Zech became my tuition teacher, my add-math grades went from below 50s to high 80s. This was due to his teaching style which was tailored to my learning pace and style. He was able to quickly identify the reasons for my low grades and helped me improve. Notably, Mr. Zech placed an emphasis on understanding rather than memorising the material. Through his patience and teaching, I was soon able to answer all given questions with relative ease. Overall, I really enjoyed all my classes with Mr. Zech.

Bernice P., IGCSE 2015

# Mathematics

## TESTIMONIALS

The sessions were really beneficial in helping me score well in M1. I went from a C to an A\* within 3 months of weekly classes. Zech compiled questions on topics in which i was weak in and explained on how to best tackle the questions. His thorough explanations and step-by-step guidance was really helpful.

Kalydia, A-levels, 2021

# Mathematics

## TESTIMONIALS

Mr Zech was very helpful when I studied M2 with him. He compiled difficult questions from past year papers which was highly effective in helping me understand the theory properly. He was also very patient when going over the questions that I struggled with and made sure that I understood it clearly before moving on.

Jennar, A-levels, 2021

# Mathematics

## TESTIMONIALS

I started my tutoring session with Mr.Zech 3 months prior to my A levels examinations. Despite the limited time available, Mr.Zech was able to come up with a productive time table to get me ready for the tests. I had a wonderful time studying under him as he's responsible and patient.

Elysse, A-levels, 2021

## TESTIMONIALS

Mr Zech is truly a great mathematics teacher. From thoroughly explaining concepts to facilitating you in thinking outside the box, I have definitely improved my math skills to be able to handle hard questions in a logical yet precise manner. His clarity when teaching has enabled me to understand the hardest concepts in the simplest manner.

Jensen, IGCSE Maths and Add-Maths, 2022

## TESTIMONIALS

Classes were interesting and something to look forward to. Concepts that were hard to understand were explained in a way that was creative and easy to grasp. Communication was no problem at all, I always felt comfortable asking questions during and after class. Teacher is always punctual and will be there at the promised time.

Darren P., IGCSE Add-Maths, 2022

## TESTIMONIALS

Great class and the teaching methods are great , I could understand better with the teaching would recommend to friends

Yong Xin, IGCSE Maths, 2022

## TESTIMONIALS

Mr Zech's class has been very engaging for me and he has helped push me into being able to solve questions with my own thinking. He is a very good teacher and is very friendly and is a huge factor to my result in add maths.

Lennox, IGCSE Add-Maths, 2023

# Mathematics

## TESTIMONIALS

With the help of Mr Zech, I managed to take A-Level maths even without IGCSE Add Maths prior and still get a credit for it. Although it maths is one of my weakest subjects, it shows that the tuition was effective in terms of my understanding of how numbers work and applying theories learnt from the class to answering the questions. This helped me solve maths problems easier as I understand the fundamentals and laws better as Mr Zech broke them down to smaller easy-to-learn parts with explanations so students can learn easier, and his clarity in delivering those lessons also helped a ton!

Louis, A-level Maths, 2023
